

The logo features the word "ASSIST" in a bold, italicized, black sans-serif font. It is centered on a thick, solid blue horizontal line that spans the width of the image. At the right end of this line, a small, dark silhouette of a fighter jet is shown in flight, moving towards the right. The jet's wings are swept back, and it appears to be leaving a faint, light blue trail behind it.

System Overview

Standards to combat COVID-19 □ April 6, 2020. In response to the COVID-19 pandemic, many Standards Developing Organizations (SDOs) have made available medical supply and personal protective equipment (PPE) standards available to the world without charge. To remain abreast of additional offerings and standardization efforts related to combating COVID-19, please periodically check the Defense Standardization Program website located at <https://www.dsp.dla.mil/Specs-Standards/COVID-19-Related-Standards/>.

ASSISTCA will begin using personal identity verification (PIV) authentication, in accordance with the Secretary of Defense Memo "Modernizing the Common Access Card (CAC) - Streamlining Identity and Improving Operational Interoperability". This will require users to have a PIV enabled CAC (all CACs should be PIV enabled, if received after February 2018) and to visit the following website https://www.dmdc.osd.mil/self_service for activation. The ASSISTCA website will be PIV enabled by May 1, 2020.

ASSIST - Register For An Account

All users must register to obtain a user account and password in order to access ASSIST-Online. Registration data is used by the DODSSP to establish the correct type of account and to manage and audit customer activity. Accounts are available free of charge to all users who need access to standardization document information.
